

# SUCCESS STORIES

From our Dealer Partners

[CarOffer] has been an amazing tool for bettering our practices overall. From inventory management, to inventory control, to sourcing, to lowering inventory turn days, CarOffer has been an instrumental tool in [our] success.

CarOffer is an innovative, no-risk, turnkey solution to managing our used inventory. In the time we've used CarOffer, we have saved a lot of money.

It's a great tool. We just finished our 2nd full month and we're over 70 sold units. We just activated our Buying Matrix this week, and we have 7 purchased units on the way already. We activated the Data Mining on the service drive and look forward to generating some leads with that. I highly recommend CarOffer.
